Playing and Learning Together

Thursday, 06 March 2008

Dear Parents,

Please read the news item below urgently.

'I have received a report from St. Giles Junior School of a possible attempted abduction of a female pupil. The pupil was approached by a man in a car as they made their way to school today. The pupil went straight to school and reported the incident. The police were informed and visited the school to take more details.

In light of the recent events in Birmingham can schools and parents remind pupils of the 'stranger danger' message and encourage pupils to report any incidents of concern.' (Warwickshire Health and Safety)

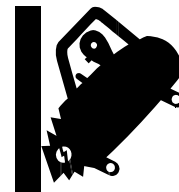

Obviously as our children come to school with parents the risk is much decreased. Please do make sure you see your child into school and that they are safe.

A worry is that as soon as your back is turned they turn around and walk off without actually coming into the classroom. Whilst we ring home to check absences if we have not been told, it could be quite a while before we realize they are missing.

Please continue to report strange behaviour, vehicles and people.

School Gates

Go on, who has a dented car?

Please remember you cannot park in school no matter how tempting the spaces look. It is too dangerous. You are not insured, either on your own or our policies. Staff are.

The children's committee will be investigating this and will report to you all about it.

Trip money for Nursery and Reception

This needs to be in by tomorrow please.

Chicken Pox

So far three children have it. Once you spot a symptom your child should be off for five days please. We do have children who are very vulnerable so do abide by this rule.
